

DENSETEC
HMW™

High Molecular Weight Polyethylene Sheet – PE 500

APPLICATIONS

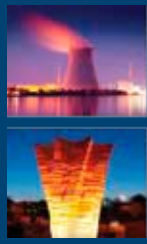

Bins	Chutes	Scrapers
Hoppers	Conveyors	Dock Fenders
Ice Rink Floors	Silo Liners	Snow Plow Liners
Reclaim Hoppers	Truck Liners	Fertilizer Spreaders
Wear Applications	Vibratory Feed Pans	Various Machine Parts

Smooth Finish

Planed Finish

DENSETEC
HMW™

FEATURES

Noise reduction
Low temp properties
Good sliding qualities
Stress crack resistant
RoHS & REACH compliant

Moisture resistant
Low coef of friction
High impact strength
Excellent wear resistance
Excellent chemical resistance

COLORS

Natural*
Red*
Black

*FDA approved colors

SIZES

STANDARD:	<u>Extruded</u> inch / mm	<u>Compression Molded</u> inch / mm
Thickness	0.03 - 1 / 0.8 - 25	Not a Standard Product
Sheet Size	48 x 96 / 1220 x 2440 48 x 120 / 1220 x 3050	
CAPABILITIES:	<u>Extruded</u> inch / mm	<u>Compression Molded</u> inch / mm
Thickness	0.03 - 1.25 / 0.8 - 32	0.5 - 4 / 12.7 - 100
Width	45 - 75 / 1140 - 1900	48 - 96 / 1220 - 2440
Length	Up to 480 / 12200	Up to 240 / 6100

FINISH

Smooth - standard extruded finish
Planed - standard compression molded finish

Note: Other sizes, colors, formulations and forming grade available upon request
